Dear Mark:

Consider this a letter of reference for the experience we had working with you on our fire alarm audibility upgrade.

Before choosing a contractor for this project, we travelled to four different sites and viewed the work by three contractors. We chose Vital Safety because of the outstanding craftsmanship demonstrated by your crew. Your price was competitive. When we ran into some tricky situations routing wires, because of the way our building was constructed, you came quickly and honoured our suggestion for concealing the wires.

Your staff was courteous and the job site was always left clean.

Because of your service and expertise, we have retained you to do our annual testing and to update our Fire Plan.

Wishing you continued success,

Clare Churchward
President, BCC#12
on behalf of the Board of Directors.
